April 28, 2006

Mr. Marlon C. Reid, CEO
Jes LeRe Hama Corporation
3778 Wind Valley Drive
Memphis, TN 38125

Dear Mr. Reid:

I have received your April 26 correspondence requesting a letter of support for JLRH Corporation in its efforts to bring industrial and technical job training into the Mid-South Delta Area, and particularly to the Marianna, Arkansas area.

I am aware of the need for such training in this economically-depressed part of our state and would think that construction and heavy equipment operator training would be an area that would benefit the region.

I endorse the idea set forth by JLRH Corporation and appreciate your efforts to improve employment in the Mid-South Delta Area through new and creative ideas.

Sincerely,

A handwritten signature in cursive script that reads "Steve Higginbothom".

Steve Higginbothom
State Senator

SH/mj

STATE OF ARKANSAS

House of Representatives

May 3, 2006

TO WHOM IT MAY CONCERN:

This letter comes in support of the Jes LeRe Hama Corporation. This organization can be a great asset to the Delta in that our area is in dire need of industry. Therefore, all the technical job training we can get in this area will enable us to produce a well trained work more industry.

I am committed to doing everything that I can to support the efforts of this organization. So, any assistance that you can give this organization will be appreciated.

Sincerely,

Nancy D. Blount

Mr. Marlon C. Reid, CEO
3778 Wind Valley Dr.
Memphis, TN 38125

Dear Mr. Reid:

I have received your letter requesting a letter of support to make possible a better Mid - South. You indicated that your greatest findings are in the area of the Construction and Heavy Equipment Operators Program.

UAM College of Technology – McGehee (SEACBEC) can supply the necessary training for the Heavy Equipment Operators. In fact, UAM College of Technology – McGehee schedules Heavy Equipment in Fall / Spring semesters on the Warren campus. We can do Non Credit Training off campus if you give us a proposal on what you need.

UAM College of Technology – McGehee could also supply the same training at a satellite location in Marianna if we have the available facilities for class room and field instructions. This course could be scheduled and taught when needed. However, the price per participant may change, because it would depend on the number of participants. At this time the training would be non-credit. We require a Minimum of ten (10) students to have a class.

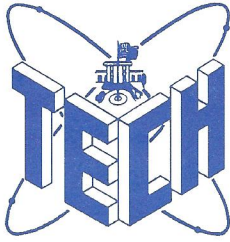

We support your efforts in trying to build the Mid-South Delta Area.

I look forward to working with you.

Sincerely,

Bob G. Ware

August 1, 2006

Mr. Marion C. Reid, CEO
Jes LeRe Hanna Corporation
3778 Wind Valley Drive
Memphis, TN 38125

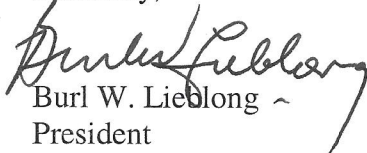

Dear Mr. Reid:

After meeting with you on August 1, 2006 regarding your request for a letter of support for JLRH Corporation and its efforts in bringing industrial and technical job-training into the Marianna, Arkansas area.

I am aware of the need for such training in this economically-depressed part of our state and would think that heavy equipment operator training would be an area that would benefit the region.

I strongly endorse the concept of the hands-on-training idea set forth by JLRH Corporation and appreciate your efforts to improve employment in the Mid-South Delta Area through new and creative ideas.

Sincerely,

Burl W. Lieblong
President
